## Drawing Basics

To draw a fashion figure the most important thing to remember is the proportions. I see many different figures drawn by artists that are wonderfully disproportioned but for the basics I recommend learning to just get your ideas on paper right now and worry about making your drawings art later.

'Croquis' are what we call the fashion figures we draw the designs on. If you are artistically impaired have no worry because there are figures out there that you can use as templates. The most important thing is getting your sketches on paper so you don't forget them and being able to

portray your ideas efficiently and effectively to others.

## Tribute

The artists work you see in on the front cover of this book is by am Australian fashion illustrator- Kelly Smith. Kelly's work has been published in several fashion magazines and advertising campaigns around the world.
